

2008 CHINA INTERNATIONAL CONFERENCE ON WALL THERMAL
INSULATION MATERIALS AND THE APPLICATION TECHNOLOGIES

Oct. 15~17, 2008

Hangzhou, Zhejiang Province, China

FORMAL CONFERENCE NOTICE

General Information

Since the successful holding of National Conference on Wall Thermal Insulation Materials and the Application Technology by Wall Thermal Insulation Materials and Application Technology Committee(WTI), Building Materials Branch, Architectural Society of China (ASC) in 2006, the wall thermal insulation technology has new development. In order to promote thermal insulating technology, absorb foreign advanced technology and experience, and make contribution to energy saving in China's construction, the 2008 CHINA INTERNATIONAL CONFERENCE ON WALL THERMAL INSULATION MATERIALS AND THE APPLICATION TECHNOLOGIES(WTIC) will be held from October 15 to October 17, 2008, in Hangzhou, Zhejiang Province, China, by Wall Thermal Insulation Materials and Application Technology Committee, Building Materials Branch, Building Materials Branch, Architectural Society of China (ASC) , China Academy of Building Research (CABR) and China Building Energy Efficiency Association. With “Wall Thermal Insulation and Building Energy Efficiency” as its theme, the purpose of WTIC is to provide a forum for the exchange of technical and scientific information, and invite famous domestic and foreign experts to make the special reports. The international conferences proceedings will be published by China Electric Power Press. During the conference, a small exhibition will be also held, including the new technology, new process, and new production of scientific research institutions, enterprises from domestic and overseas.

Organizers

China Academy of Building Research (CABR)

Wall Thermal Insulation Materials and Application Technology Committee, Building Materials Branch, Architectural Society of China (ASC)

China Building Energy Efficiency Association. China Construction Industry Association

Co-organizers

Zhejiang Academy of Building Research & Design Co. Ltd.

Theme

Wall Thermal Insulation and Building Energy Efficiency

Conference Topics

- 1、 Current Situation and Development Trend of Wall Thermal Insulation Materials and the Application Technologies
- 2、 Studies of Exterior Wall Thermal Insulation Systems Adapted to Different Regions
- 3、 Safety, Durability and Maintenance Issues of Wall Thermal Insulation Systems
- 4、 Wall Thermal Insulation Materials, Construction Processes and Typical Cases
- 5、 Testing Techniques for Insulated Construction Wall
- 6、 Energy Saving Renovation of Existing Buildings
- 7、 National Policies & Regulations, Standards & Guidelines Related to Construction Wall Thermal Insulation and Building Energy Efficiency
- 8、 Important Academic or Technical Research Progresses in the Fields of Wall Thermal Insulation
- 9、 Decoration and Insulation Integrated Technologies for Wall Thermal Insulation
- 10、 Auxiliary materials for Wall Thermal Insulation system (such as commercial mortar, anchor parts, and so on)

Milestone Dates

Registration: Oct. 15, 2008, Zhejiang Jinma Palace Hotel lobby

Conference Date: Oct. 16-17, 2008

Exhibition Date: Oct. 16-17, 2008

Venue

This conference and exhibition will be held at the Jinma Palace. The Jinma Palace is located in No.218 Tong hui Midroad. Xiao shan. in Hang zhou, Zhejiang Province, China

Conference Time Table

	Oct.15, Wed.	Oct.16, Thurs.	Oct.17, Fri.
Morning	Registration	Opening Ceremony Symposia/ exhibition	Symposia/ exhibition
Afternoon	Registration	Symposia/ exhibition	Symposia/exhibition
Evening		Banquet	

Registration Fees

Participant	RMB 1000 ¥
Student	RMB 600 ¥

Notes:

1. The registration fee for each participant includes entry to symposia, the banquet, coffee break, gifts, and one volume of Proceedings
